## On-Line Live Facebook Presentations

Every Thursday evening from 8:00 to 8:30pm

Dr. Smith presents important information regarding current topics.

He also entertains Q & A from the listening audience.

## Testimonials

### 20 Years of Migraine Headaches

Danielle suffered migraine headaches for over 20 years. These head crunching painful episodes would materialize suddenly and also be triggered by alcoholic drinks. Danielle tried just about all of science based medicines without any relief. The patient had a history of several motor vehicle accidents as well as a few concussions. Evaluation revealed several major cranial bone distortions, which were never diagnosed, and several factors involving heavy metal contamination and nutritional deficiencies. Treatment consisted of a cranial adjustment and a nutritional program to restore existing imbalances and detoxification to remove existing contaminants. Progress: Following the first cranial adjustment, Danielle's 20 plus year migraines stopped completely. And to her amazement she did not trigger any migraine headaches with alcoholic beverages during the holiday season. Follow up visits will focus on continued detoxification and rebuilding her immune system with food based organic supplements. Better living through organic supplements and non-invasive therapies.

---

### Great Improvement of Down Syndrome by Detoxing Mercury and Vaccines

Medicine attributes Down Syndrome and many other abnormalities to genetic defects. A common denominator among genetic defects is the fact that they result from mutations in the genes. The Environmental Working Group spent \$500,000 analyzing the blood of ten new born babies at birth by taking blood samples from their placenta. On average they found 287 chemicals in their blood. Do you think the presence of PCBs, Dioxins, Scotch Guard chemicals, pesticides, 212 industrial chemicals and pesticides banned 30+ years ago may be the cause of the genetic defects? The testimonial produced deals with a Down syndrome boy who was diagnosed with Thimerosal in the left side of his brain and tetanus vaccine in the left lobe of his thyroid. Using specific homeopathic remedies and vitamin chelating supplements designed to pull out the ethyl mercury (Thimerosal) and the tetanus vaccine, the child improved dramatically. It is Doctor Smith's opinion that the combination of environmental toxins present within the body plus the injection of toxic childhood vaccines provides the potential cause for genetic defects and weakening the child's immune system. The choice is yours to make.

## LUXEMBOURG MEDICAL/DENTAL CENTER

*"Where Alternative Treatments are Conventional"*

### Advanced Integrative Medical Diagnostic Technologies

- **Quantum Testing Technique:**  
Incredibly accurate, non-invasive diagnostic system that defines causative factors.
- **CyberScan Professional System:**  
Computerized system with a database of over 135,000 electromagnetic signatures to assess your holographic energy pattern and determine your body's stressors.
- **ANSAR:**  
FDA approved diagnostic system that assesses the autonomic nervous system to monitor treatment progress and predict heart problems before they manifest.

*"Without a proper diagnosis there is no correct treatment."*

These technologies are 50 years ahead of what conventional medicine has to offer.

# Advanced Integrative Medical Treatment Technologies

*The following modalities are available in our office:*

- **Theraphi System:**

Treatment concept based on Nikola Tesla's scalar wave therapy. It repairs the DNA, it disassembles heavy metals, chemicals, pathogens and other toxins to allow the body to heal, and stimulates stem cells to repair the body.

- **Biofrequencies:**

This technology was developed and proven very successful in the 1930s. After a controlled study done in 1934 under the auspices of USCLA university, cured 16 terminally ill cancer patients, the FDA, AMA and Big Pharma embarked on a campaign to destroy Dr. Royal Ramond Rife's functional generator technology. Rife's innovation used specific frequencies to destroy viruses, bacteria, mold, fungus, chemicals, treat cancer and most medical illnesses.

- **CyberScan System:**

Once the stressors are defined, the CyberScan System can broadcast frequencies to stimulate the body to heal. Also a custom eeCard is imprinted with the frequencies for you, which when worn will help balance your body's energies. This diagnostic system picks up stressors: mercury, chemicals, vaccines and their adjuvants, parasites and much more that are trapped in organs or tissues.

- **Soft Laser:**

This healing laser transmits fourteen frequencies for each metal in the periodic table through a near perfect diamond to heal the DNA. Works well for pain and infections in the jawbone.

- **Infrared Laser:**

This laser is effective in healing brain injuries and other soft tissue injuries. When coupled with Biofrequencies, it is effective in resolving many common issues, like fear, insecurity, emotional traumas, LPTSD, anxiety and depression.

- **Bioptron:**

This device produces full spectrum light minus UVA and UVB, which has been documented to increase microcirculation by 48 percent. It is very effective in alleviating pain, inflammation, and speeding up the healing of sports injuries.

- **My-O-Matic -Microcurrent Device:**

Microcurrents are 1000 times less intense than a TENS device and much more effective in alleviating pain and swelling. This device has been successfully used by many professional athletes especially for post-surgical healing. The scientific literature documents that microcurrents enhance the uptake of amino acids to speed up the healing of soft and hard tissues.

- **Tesla Energy Card® :**

This technology was developed by Dr. Smith and proven clinically as an effective delivery system for supplements in the form of vibrational infused energy patterns into solutions. By imprinting your drinking water, the healing frequencies are imbedded into solution and quickly permeate your body. The card can also be worn in your pocket to protect you against EMFs and help reestablish your energy back to balance.

- **Custom Homeopathic Remedies:**

Our sophisticated computer system allows us to make custom homeopathic remedies for both our patients and their pets. In cases where patients cannot swallow supplements, we have successfully cloned them into solution.

- **Full Line of Food Based Supplements:**

Dr. Smith's 51 plus years of practice has enabled him to locate some of the highest quality nutritional supplements from around the globe. In addition, Dr. Smith tests the energy pattern of all supplements with the energy pattern of each patient. He has also developed a sequencing schedule for supplements that has proven clinically to reduce herxheimer's reactions and resolve the root cause of patient's medical problems. His 167 case studies verify the effectiveness of his approach. [www.icnr.com/cs/csindex.html](http://www.icnr.com/cs/csindex.html)

- **Cranial Manipulation:**

Dr. Smith is the first person in the world to develop cranial indicators to guide professionals in properly restoring the bite. He has also pioneered techniques for successfully reversing post-concussion symptoms that have eluded conventional medical treatment. [www.concussionreversed.com](http://www.concussionreversed.com)

- **Quantum Testing Technique:**

Dr. Smith has pioneered a comprehensive integrative diagnostic technique that enables an effective and accurate means of diagnosing patient's medical problems that have escaped the best conventional testing techniques. With this technology, he has reversed cases that medical science stated there were no cures.

## Brief Curriculum Vitae

Doctor Gerald H. Smith is a recognized international dental authority on craniomandibular somatic disorders with a focus on resolving chronic pain. He also holds a degree in natural medicine from the World Organization for Natural Medicine. He is the author of a landmark textbook, Cranial-Dental-Sacral Complex and the first researcher in the world to radiographically document cranial bone movement by means of the Dental Orthogonal Radiographic Analysis System. Doctor Smith also developed and patented the world's first cranial motion precision attachment to permit cranial motion in fixed bridgework. Doctor Smith is also the originator of the Occlusal Cranial Balancing Technique, the world's first occlusal system to balance cranial bone and spinal alignment. He has also contributed equally important books, Reversing Cancer, Headaches Aren't Forever, Alternative Treatments For Conquering Chronic Pain, Remove the "Splinters" and Watch the Body Heal, and his most recent publication Cancer Deconstructed. His books present a major paradigm shift by integrating osteopathic, chiropractic, dental, medical, physical therapy, vibrational healing and nutritional concepts. Doctor Smith's 51 plus years of clinical research has uncovered major missing links for the cause of chronic pain, degenerative diseases, cancer, Parkinson's disease, autoimmune diseases and other major medical problems. He was an invited speaker at Walter Reed Army Medical Hospital, Yonsei Memorial Hospital in Seoul Korea, Holistic Medical Association and other prestigious meetings. He was a past president and editor of the Holistic Dental Association, and past president of the Pennsylvania Craniomandibular Society. He has a specialty practice in chronic pain, cranial manipulation, nutrition and dental orthopedics/orthodontics in Langhorne, Pennsylvania.

Dr. Smith is available for national and international phone and Zoom consultations. An appointment can be secured on line:
